

Metoject[®] PEN travel advice

Metoject[®] should be stored at room temperature. However, if the room temperature rises above 25°C, then store in a cooler, dry place or in a fridge (minimum temperature 2°C).

When flying, Metoject[®] must always be carried in your hand luggage. If required by the airline, ask your doctor for a letter confirming you are on this prescribed medication.

If you need any vaccinations before travelling, please check with your nurse FIRST.

If you develop diarrhoea and or/vomiting whilst on holiday, stop taking Metoject[®] and seek medical advice.

For further travel advice, speak to your GP, nurse specialist or pharmacist.
